# BEISPIELE?

The working pressure of the safety device and the mechanical resistance of the opening systems are inadequate.

If the lid is opened abruptly, the lid's gasket may be ejected from the lid causing hot liquid to shoot out of the pressure cooker.

# BEISPIELE?

The mobile application accompanying the watch has unencrypted communications with its backend server and the server enables unauthenticated access to data. As a consequence, the data such as location history, phone numbers, serial number can easily be retrieved and changed.

A malicious user can send commands to any watch making it call another number of his choosing, can communicate with the child wearing the device or locate the child through GPS.
